P3M004F04

Dismantling-fitting steering wheel height adjustment device

P3M004F05

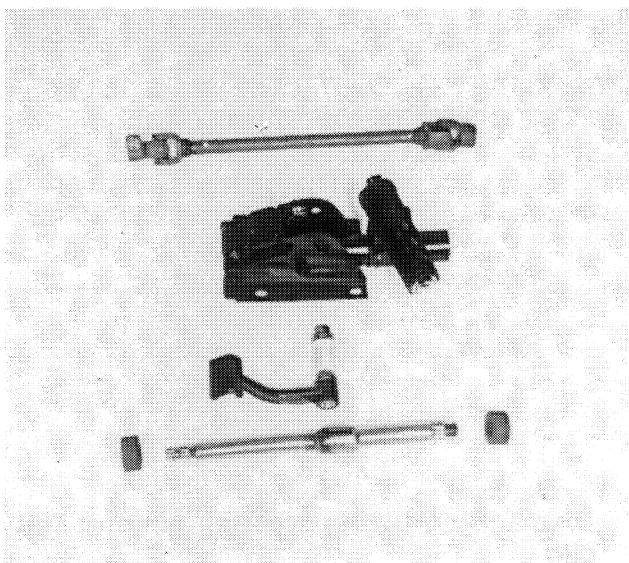

Removing bush-retaining staking on upper steering column

P3M005F01

Dismantling-fitting upper steering column from mounting

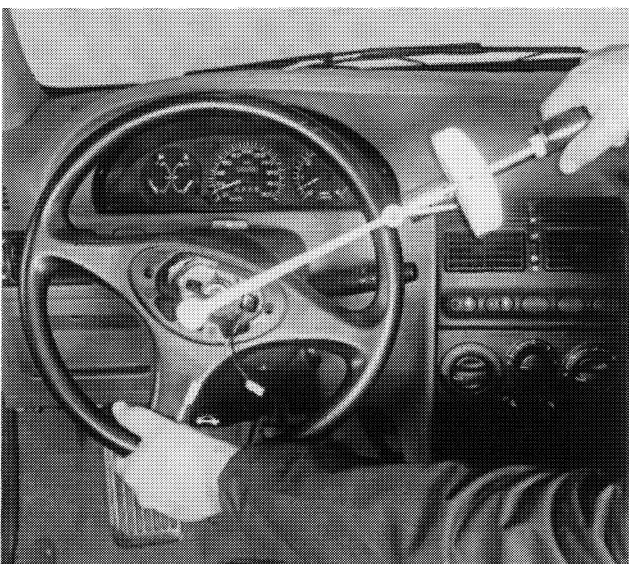

P3M005F02

Checking steering column components

Check that there is not excessive play between the upper steering column and its rubber bushes, and that the column is not out of true. Also check that there is not excessive play on the spiders in the universal joints on the lower steering column. Replace any faulty components.
